

Resource Parent Bloodborne Pathogen Online Training

Name: _____ County: _____
 Date Videos Viewed: _____
 Date Test Returned: _____ Returned To: _____

Directions: Please go to the website www.probloodborne.com on any computer with internet access and sound. Once on the homepage, you will click **TRAINING** at the top of the page. This will take you to the online directions. On this page you will be asked to download the **STUDENT MANUAL**, which includes the **TEST** that you will have to return to your Licensure Specialist. You may print this information or this may be provided to you in advance from your Licensure Specialist. Once you have the student manual and test, you will begin to watch the series of videos. You will need to scroll down the page, click on and view **PLAY ALL INTRO VIDEOS (4:55 minutes)**. Then you will click on and view **PLAY ALL TYPES OF BLOODBORNE DISEASES VIDEOS (15:03 minutes)**. Lastly, you will click on and view **PLAY ALL ENGINEERING AND WORK PRACTICE CONTROLS VIDEOS (29:20 minutes)**. This entire video training should take you approximately 50 minutes to view. You will then take the test in the back of your student manual. Please complete this form to ensure that you have met all requirements and submit this form with your completed test to your Licensure Specialist, who will provide you with a training certificate.

You do not have to register to download the student manual or to view the training videos. This is a free training, as you are not required by MDHS DFCS to be certified in Bloodborne Pathogens. You will receive a certificate of completion from your Licensure Specialist.
